How We Assist...

HEALTH CARE ORGANIZATIONS

A steady partner in tumultuous times.

It's no secret that the world of health care is changing rapidly. Keeping health care-related entities compliant and fiscally healthy is one of the core parts of our business. Bonadio is a leading audit, tax and business advisory firm for organizations who receive substantial funding from Medicare, Medicaid and commercial insurers.

Our dedicated Health Care Team brings longtime experience and considerable resources to the challenges you face. From compliance and accounting, to reimbursement and financial planning, Bonadio also brings unsurpassed levels of technical excellence. Our commitment and dedication to our clients have made us one of the most successful CPA firms serving healthcare entities in New York State.

The fiscal health you need to stay vital.

Bonadio understands the increasing pressure facing health care organizations and professionals, and we strive to deliver a combination of unparalleled quality and affordable cost that keeps your bottom line in mind. We've worked with hundreds of health care organizations through the years, often becoming a key business advisor to them—and an integral part of their business planning team.

Because we develop close working relationships with our clients, we are able to offer a wide range of assistance that goes far beyond typical audit services. Our team's combination of knowledge, experience and resources means that our clients can count on us to deliver keen insights and superior execution to meet practically any challenge they face.

From strategic planning and reimbursement consulting, to third-party rate reviews and contract negotiations, everything we do is focused on helping you maintain and enhance your fiscal wellness.

Avoid costly paybacks, fines and penalties.

Staying on top of regulatory compliance is one of the most challenging tasks facing the health care industry. Even more daunting, regulations are changing all the time. It's not enough to understand current regulations; you also have to be familiar with constantly evolving rules.

Our dedicated team includes every type of expert you need to cover this important area, from Certified Healthcare Compliance professionals and Certified Fraud Examiners, to Certified Information Systems Auditors and Rate and Reimbursement Specialists. We can provide considerable resources when you need to keep abreast of regulatory change and their impact on your organization.

Big firm capability. Small firm personality.
